## OUR MISSION

[Water Quality](#)

[Water Availability & Sustainability](#)

[Water Energy](#)

### Water Quality

Abundant, high quality groundwater is essential to our nation and its citizens. The GWPC works with state agencies to promote and protect our most precious natural resource: groundwater.

## NEWS

### GWPC RELEASES NEW WEBSITE

09-16-2011

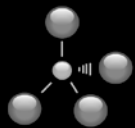

The Groundwater Protection Council recently released approved designs for a website update. New design will include a shift in overall look and feel, but will also incorporate additional functionality such as a more robust resources guide area and a secure incubation area for member states to share information and ideas.
