

RESOLUTION 10-1
REGARDING THE AVAILABILITY OF INFORMATION ABOUT THE CHEMICAL
CONSTITUENTS USED IN THE PRACTICE OF HYDRAULIC FRACTURING

WHEREAS, the practice of hydraulic fracturing typically involves the use of an engineered fluid system that contains chemical additives; and

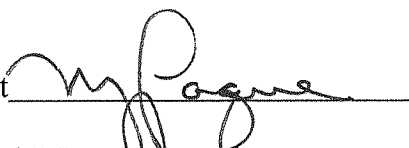

WHEREAS, it is in the best interest of the public that information concerning the individual chemical constituents used in hydraulic fracturing be made available through the states; and

WHEREAS, the experience and capability exists within the Ground Water Protection Council and its member states to develop electronic systems to gather, store and disseminate information about the chemicals used in hydraulic fracturing.

NOW THEREFORE BE IT RESOLVED THAT, the GWPC, in concert with other state representative organizations, intends to develop and implement a system to enhance access to state and other pertinent information concerning chemicals used in hydraulic fracturing.
